

Mark your calendars!
Tuesday, February 2nd
is the
Math-A-Thon Kick-off!

- The students will be bringing home Math Study Sheets to practice and/or will be practicing in class.
- Start collecting pledges from family, friends and coworkers immediately.
- Pledges can be made based on how many correct problems your child completes for example a sponsor who pledges .10 per problem would owe \$10 total, if the student got all 100 problems correct or \$8 if the student answered 80 problems correct. A .20 per problem pledge would yield a \$20 return on 100% correct.
- Pledges can be made at a flat rate for example: a sponsor pledges \$20 to your child for their participation.
- All students will be given 100 Math problems. K - 2 students will be given 50 math items worth 2 points each to total 100 points.
- If each student collects a total of \$100 in pledges, (e.g. 10 sponsors @.10 per problem; 4 sponsors @ .25 per problem), our school would make \$32,000, which would benefit our children in so many ways.
- Pledge sheets will be sent home on Tuesday, February 2, 2010.
- All money is due to school by Thursday, February 18, 2010.
